

# OFFICAL BID RESULTS

## Construction Services for KVCR Technology Core Modernization Project # 03-1718-10

	Bid Amount	Allowance	Bid Add Alternate No. 1 Only	Bid Amount
<b>Viper Cabling, Inc. of Buena Park, CA</b>	\$6,488,778.5	\$100,000.00	\$129,135.33	<b>\$6,717,913.80</b>

Due to the ultra-specialized scope of services required for this project, a request for qualification and proposal was completed. Four contractors responded. Based on vendor qualifications, area of expertise, and response to the questionnaire, three firms received prequalification approval (Diversified, Viper Cabling, Inc., and Burst Communications, Inc.). Subsequently the district had to disqualify Burst Communications, Inc. as they merge with the KVCR design professional consultant, Key Code Media, Inc. based on conflict of interest. At the bid opening on January 30, 2019, Viper Cabling, Inc. submitted its bid and determined to be the only responsible and responsive bidder for the construction services for KVCR Technology Core Modernization Project.
